

Dear Potential Fellow applicant

The Fellow Assessor Panel during 2013 undertook a complete review of the Fellow process and more importantly the Fellow application form.

You have just downloaded this new application. You will also see from the web pages that all guidance notes and criteria have been updated, it is hoped, these will provide clarity, improved guidance and ease of use.

The application is, at first glance extensive, however not all pages are required to be completed and I would ask that you read through the documentation and after gathering your thoughts and evidence decide which two or more of the nine enhanced criteria you feel are applicable to you.

Only those pages of your chosen criteria need to be completed plus your personal information, attestation and referee input.

This document is in its 'trial' stage and it is envisaged that this time will allow us to fine tune the document in readiness for an 'on-line' version in due course.

Any feedback you have about the guidance, application and process can be forwarded to fellowship@theiet.org.

Regards

Pat Dinner
